Expression of Interest

Registered Nurse – Endoscopy Intensive Upskilling Pathway (Level 1.2 minimum)
Medical Division, Endoscopy – Royal Perth Hospital
Position Number: 105266
64-76 hours (0.8-0.9 FTE) start dates negotiable for 6 months, non-continuous shift worker

Eligibility

This position is to be filled from within WA Health. Current WA Health (including current RPBMLG) employees (including permanent, fixed term contract) are eligible to apply.
EMHS is committed to ensuring that our services are delivered by people who are representative of the diverse communities we assist. We wholly embrace diversity and inclusion and encourage people to work with us from all ages, races, genders, religions, sexual orientations, family responsibilities or other characteristics, including Aboriginal people, people from culturally diverse backgrounds, individuals with a diverse sexuality and gender or bodily diversity, and people with disability.

Position Description

The Endoscopy Intensive Upskilling pathway is a 6-month structured development program designed to support qualified nurses to begin a career pathway in a tertiary hospital Endoscopy setting. Nurses with at least 12 months acute care experience are eligible to apply.

The program will consist of intensive practical skill development and structured education sessions to enable staff to safely manage the care of endoscopy patients and perform complex endoscopic interventions for diagnostic, therapeutic and emergency indications. An opportunity for permanent employment in Endoscopy may be offered on successful completion of the program and subject to FTE availability.

Qualification and Experience

The successful applicant will require:

- A minimum of 12 months acute care nursing experience
- Demonstrated ability to critically analyse data to support safe decision making / problem solving.
- Effective interpersonal, communication (written and verbal) skills
- Demonstrated behaviours that align with EMHS values
- Commit to regular self-directed study
