Department of **Health**

# Aboriginal Sector Communication Update #30

**Wednesday 10 November 2021 14:00 Hours**

**COVID-19 is a continually changing situation, please check the latest information and updates to find the most current public health advice, please go to the [WA government website](#) and [HealthyWA](#)**

This regular statewide communication update is to keep health professionals abreast of the state-wide public health messages and resources for COVID-19 that have been developed by the Public Health Emergency Operations Centre (PHEOC) for the Aboriginal community and health professionals.

## COVID-19 Case numbers

As of **10 November 2021**, there are **1,112** confirmed cases, **110** historical cases and **0** active case of Coronavirus (COVID-19) in Western Australia (WA). **1,103** people have recovered from COVID-19 in WA. There have been **9** deaths from COVID-19 in WA.

To date **1,895,409** COVID-19 tests have been conducted in WA.

**WA:** [Daily snapshot](#) & [Vaccination dashboard](#)

**National:** [Current National Status](#) & [Australia's vaccine rollout](#)

**Worldwide:** [WHO Situation Reports](#) & [WHO Dashboard](#)

## National COVID-19 Aboriginal epidemiological profile

Below is a summary of the epidemiological profile of COVID-19 amongst Aboriginal Australians (taken from key insights **No.21**, produced by the Aboriginal Health Policy Directorate). Data is current as at **24 October 2021**. Please note, some of the data in this update is preliminary and is subject to adjustments and changes.

### 1 January 2020 to 24 October 2021:

- Since the beginning of the pandemic to **24 October 2021**, **4%** (**6,232**) of the **159,393** positive cases notified in the Australian National Notifiable Disease Surveillance System (NNDSS) were identified as Aboriginal people (a significant increase since the last update).
- COVID-19 cases among Aboriginal Australians (relating to the NSW outbreak) have grown by more than 40 times since June, increasing from around **153** confirmed cases in June 2021, to **6,232** cases in October 2021.
- The highest proportion of cases amongst Aboriginal people was in the **18 to 29** years age group (around **24%**) followed by the **30 to 39** years age group (**15%**).
- It is estimated that around **2%** of all confirmed cases amongst Aboriginal Australians have been fully vaccinated against COVID-19.
- The **90 and over** years age group had the highest hospitalisation rate (**50%**), followed by the **80-89** years age group (**40%**) and **70-79** age group (**37%**). The **70-79** years age groups had the highest ICU admission rate (**11%**).
- The completeness of Aboriginal status identification fields in the NNDSS was around **81%**.

## Vaccination rates among Aboriginal people

As at 9 November 2021, across Australia, around 67% of Aboriginal Australians aged 16 years and over have been partially vaccinated (i.e. vaccinated with at least one dose), while 55% are fully vaccinated (2 doses) against COVID-19.

Comparing with other jurisdictions, WA has the lowest rates of vaccination against COVID-19 amongst Aboriginal people (around 31% for fully vaccinated and 46% for partially vaccinated). ACT has the highest percentage of Aboriginal people who have been partially and fully vaccinated against COVID-19 at the rate of 91% and 88%, respectively.

## NSW outbreak - Summary of COVID-19 among Aboriginal people

Aboriginal people in NSW and the ACT have been heavily and disproportionately affected by Covid-19. Ten per cent of all COVID cases in NSW and the ACT are Aboriginal and Islander people, meaning they have been affected at twice the rate of other Australians.

Data from the National Aboriginal community controlled health organisation (NACCHO) shows, in the past three months, there have been 7,000 cases, 700 hospitalisations, 80 people in ICU and 14 deaths among Aboriginal people in NSW and ACT.

## Latest updates and new resources

### New videos promoting vaccination in young Aboriginal men and women.

The Aboriginal Health Policy Directorate has been busy developing two videos promoting vaccination in Aboriginal people. They have just been released and are currently available to share on Facebook. They are also airing on TV. Please share the videos far and wide through your social media networks

[Protect yourself, your family and our community-COVID vaccination-Video 1-Young men – “But we don’t have COVID here”](#)

[Protect yourself, your family and our community-COVID vaccination-Video 2- “The virus doesn’t care how old you are”](#)

### New resources available from the commonwealth

The Commonwealth has released a new collection of videos, where Aboriginal and Torres Strait Islander people from all over Australia talk about why they got their vaccine.

<https://www.health.gov.au/resources/collections/covid-19-vaccination-aboriginal-and-torres-strait-islander-peoples-getting-vaccinated>

### Encouraging the 2<sup>nd</sup> dose

The Aboriginal Health Council of Western Australia (AHCWA) has been working hard promoting the importance of getting the 2<sup>nd</sup> dose of the COVID-19 vaccine to Aboriginal people. They have designed a graphic to help staff discuss with the residents of a remote community, the benefits of the COVID vaccine, particularly to those who people couldn’t see the value of the second dose. The feedback from the staff using the graphic has been very positive.

The graphic is available for others to access here:

<https://nacchocommunique.com/wp-content/uploads/2021/10/INFOGRAPHIC-AHCWA-infographic-importance-of-second-covid-vax.pdf>

## COVID-19 vaccination program

Vaccination is the best way to protect our community from COVID-19.

## **All Aboriginal and Torres Strait Islander people aged 12 and over are now eligible to receive a COVID-19 vaccination.**

People can book in to receive the COVID-19 vaccine that is appropriate for them at their local Aboriginal Medical Service (AMS) OR at a state-run COVID-19 vaccination community clinic or at a regional public hospital-based vaccination clinic. Alternatively, participating AMS or GP clinics can be found by using the Vaccine Eligibility Checker [here](#).

**All State-run community vaccination clinics are now open for people to attend without an appointment.** Some regional clinics also offer the opportunity to be vaccinated without appointments. Please check the community vaccination clinic list [online](#) for further information and opening times.

Pregnant and breastfeeding women, and those planning to become pregnant are now recommended to have the Pfizer vaccine. Read the full statement from the Australian Government Department of Health [here](#) and the updated COVID-19 vaccination – shared decision making guide for women who are pregnant, breastfeeding or planning pregnancy [here](#).

The WA COVID-19 Vaccine Myths and FAQ factsheet can be found [here](#).

### **Community clinics**

There will be numerous regional pop-up clinics available for walk-ins in the coming weeks. Visit the [COVID-19 vaccine](#) webpage for a list of these clinics and their opening times and follow the [WA Government Facebook page](#) to keep up to date with new vaccination events near you

#### **New metro clinic:**

**[Canning Vale:](#)** Canning Vale Market City, First floor, Block B, Suite 14, 280 Bannister Road, Canning Vale. Opening hours are 9am to 3pm Monday – Sunday (every day).

**A new vaccination clinic is planned to open in Ellenbrook next week.**

Existing [Community vaccination clinics](#) in WA include Armadale, Mirrabooka, **Carramar, Mandurah, Canning Vale**, Midland, Perth Convention and Exhibition Centre, Claremont Showgrounds, Joondalup, Kwinana, and Bunbury.

The Comirnaty (Pfizer) COVID-19 vaccine is now being rolled out to, and administered by, GPs in WA. Approved pharmacies can also now administer the Spikevax (Moderna) and AstraZeneca COVID-19 vaccines for eligible populations. Participating GPs and pharmacies can be found by using the [COVID-19 Vaccine Clinic Finder](#).

Alternatively, you can contact your local Aboriginal Medical Service or General Practice to find out if they are offering COVID vaccinations. Anyone having difficulties booking on VaccinateWA can call 13 COVID (1326843) for assistance.

### **Pop-up clinics**

There will be numerous regional pop-up clinics available for walk-ins in the coming weeks. Visit the [COVID-19 vaccine](#) webpage for a list of these clinics and their opening times and follow the WA Government Facebook page to keep up to date with new vaccination events near you.

**Some of the upcoming events that will include pop-up vaccination clinics include:**

- **Mandjar Dance Off**  
Sat 20 November, Mandurah
- **Gnaala Karla Booja netball competition**  
Sunday 21 November, Kwinana

## Priority COVID-19 health messages for Aboriginal people

Aboriginal health professionals and sector representatives are encouraged to promote and reinforce the following key messages to Aboriginal clients and community. Remember to:

- get a COVID vaccine as soon as it is your turn
- physical distance where possible
- practise good hand hygiene and cough etiquette
- stay at home if unwell and rest to stay strong
- if unwell with flu-like symptoms, get tested (make sure to quarantine until you receive your test result)
- make sure your family gets the flu vaccine
- keep attending your regular health checks, especially for chronic illnesses
- download and use the free [SafeWA app for your phone](#)
- look after your mental health and social emotional wellbeing during this time

## COVID-19 resources for Aboriginal people

### Statewide Aboriginal resources

A suite of statewide Aboriginal tailored resources has been developed by the Department of Health WA. The aim of providing culturally-appropriate communications is to increase awareness and reduce anxiety and fear in our communities. We encourage Aboriginal health professionals to demonstrate leadership when working with the Aboriginal community by:

- being “on message”
- reinforcing and encouraging people to ‘stay vigilant’ and ‘don’t get complacent’
- using positive strength-based messaging and language
- ensuring consistent, accurate and timely communication is provided, based on the official public health messages and health information issued by the Chief Health Officer from the Department of Health.

To access previous Aboriginal Communication Updates and other information specific to people working in the Aboriginal Sector, please visit [WA Department of Health – Aboriginal Sector](#).

To access general resources for your community (including factsheets, posters and video/radio messages) relating to COVID-19 and vaccination, please visit [HealthyWA - Coronavirus \(COVID-19\) for Aboriginal People](#). GP and other support phone lists are also provided on this site.

Health services are welcome to tailor WA Department of Health COVID-19 Aboriginal resources to meet community needs. Please reference the Department of Health WA and contact PHEOC ([pheoc@health.wa.gov.au](mailto:pheoc@health.wa.gov.au)) for further information.

- [Protect yourself, your family and our community-COVID vaccination-“The virus doesn’t care how old you are” – 30 sec video](#)
- [Importance of second dose - infographic](#)

Further resources can be sourced on the [WA Government website](#) including a variety of new posters that promote Roll up for WA for you to use. The posters include stories from people who have received the COVID-19 vaccine and information about how to book an appointment, what to expect at the community vaccination clinic and where to find more information.

Check the [stakeholder kit](#) regularly for updates. If you would like to receive a Roll up for WA poster pack, please send an email to [COVID19Vaccines@dpc.wa.gov.au](mailto:COVID19Vaccines@dpc.wa.gov.au) with:

- the best mailing address to contact you
- which posters you’d like, or to tell us a bit about your community so we can make a selection
- where you plan to put up the posters

## National Aboriginal resources

The Australian Government has produced a collection of materials created for Aboriginal and Torres Strait Islander vaccine providers to download and print to utilise in their health clinics and practices. These materials include posters, social media resources, handouts and web banners. These are all available on their [website](#).

A collection of general COVID-19 resources for Aboriginal and Torres Strait Islander people and remote communities is also available [here](#).

New vaccination resources include:

- A [video animation](#) in plain English that could be sent to patients’ emails or used in clinic waiting rooms explaining what to expect on vaccination day, side effects and the need for two doses of the COVID-19 vaccine.
- A suite of [talking points](#) designed for healthcare workers, to help them have conversations with patients about COVID-19 vaccines.
- Updated [social resources](#) with suggested captions to use across social media.

## Getting a COVID-19 test resources

- **WA Department of Health COVID-19 Resources for Aboriginal people**  
The WA Health Department has developed a suite of culturally-appropriate resources to support the Aboriginal community and health services in being COVID-19 safe and informed. They are found here.
  - [COVID Clinics location in WA](#)
  - [Where to get tested for COVID-19 in regional and Remote WA](#)
- **Queensland Aboriginal and Islander Health Council**  
QAIHC have been developing culturally appropriate resources to keep ACCHOs and their community informed and protected against COVID-19.
  - [How are you tested for COVID-19?](#)
- **Getting the COVID-19 test: Story books**  
The Victorian Aboriginal Child Care Agency has developed two easy-to-understand story books to help children understand what a COVID-19 test is and what will happen during the process.
  - [Getting the COVID-19 test at the testing station or hospital](#)

- **AHMRC's COVID-19 Testing Resources.**

The Aboriginal Health and Medical Research Council of New South Wales has provided various resources on their website <https://www.ahmrc.org.au/coronavirus/> to support their member services across NSW during a COVID-19 outbreak and to minimise the impact on Aboriginal communities. Below are some resources on COVID-19 testing.

- [Getting ready for a COVID-19 test](#)
- [Do what's best. Get a COVID-19 test](#)

- **#swab4mob**

The Aboriginal Health and Medical Research Council of New South Wales has initiated the #swab4mob campaign to encourage Aboriginal and Torres Strait Islander communities to get tested and protect their families and communities by getting a COVID-19 test if they feel unwell. You can find a link to the video below.
