

Resident Medical Officer Streams

Accelerate your career with RPBG

With an established international reputation for contribution to healthcare, training and research as well as the provision of extensive, tailored career opportunities, RPBG provides an ideal launchpad for your career in the medical profession.

RPBG is keenly invested in the personal and professional progression of its staff and their engagement in strategic organisational decisions. With support and active engagement from the medical wellbeing program and peer support services, as well as tailored streams of clinical rotations that provide JMOs with the necessary skills and experience to pursue their desired career pathway.

The streams in the Resident Medical Officer program are outlined overleaf, covering rotations at RPBG, Armadale Health Service, Kalgoorlie Hospital, Bunbury Health Campus and Port Hedland Regional Hospital, and specialised rotations within the Perth Metropolitan area (SJOG Mt Lawley, Mount Hospital, Perth Children's Hospital).

Key reasons you should work for RPBG

- › Defined streams of medical rotations tailored to provide doctors with the necessary skills and experience to progress down intended career pathways.
- › Expanding medical wellbeing program and peer support systems.
- › Opportunities for rotation variations including Service Improvement, Perioperative, Anaesthetic ED, Silver Chain and CRP rural rotations.
- › Supportive of part-time/flexible training arrangement negotiations.
- › Doctors have the opportunity to be engaged with the Hospital Executive and Area Board through an active JMO Liaison Committee.

Education and Training: 9224 7091

Recruitment: 9224 3615

MEDICAL STREAM

In the medical rotation you will get between one and three terms in an acute/general medicine ward (combination of RPH AMU, AHS General Medicine and SJOG Mt Lawley Medicine Unit), as well as one leave relief or after hours term.

Optional specialities in this stream include: **Cardiology, Endocrinology, Dermatology, Rehabilitation/Aged Care, Haematology, Neurology, Renal, Respiratory, Immunology, Rheumatology, Emergency, Microbiology and Hospital in the Home.**

CRITICAL CARE STREAM

In the critical care stream you will be placed within an Emergency Department for between one and four terms complimented by a selection of these speciality areas: **Trauma, General Medicine, Intensive Care, Acute Medicine, After Hours and Leave Relief.**

GP STREAM

In the GP stream you will be based only in the metro area. All rotations in this stream will complete an after hours and or leave relief term complimented by the following specialties: **Mental Health, Obstetrics and Gynaecology, Rehabilitation/ Aged Care, General Medicine, Emergency and Ophthalmology.**

VARIETY STREAM

Not sure what direction you want to take in your career? The variety stream gives you experience in a diverse range of specialties to assist you in making your choice. Speciality placements in this stream include: **Anaesthetics, Mental Health, Intensive Care, Psychogeriatric Care, Rehabilitation/Aged Care, Orthopaedics, General Medicine, Spinal and Cardiology.**

SURGICAL STREAM

The surgical stream has been tailored to residents interested in pursuing a surgical career. In the surgical rotation you will choose between a focus on either: General Surgery, Orthopaedic Surgery or Surgical Specialties.

In this stream you will have a term in either leave relief and/or after hours with a combination of other rotations such as: **Emergency, Trauma, Vascular, Intensive Care, Plastics, Ea, Nose and Throat, Orthopaedics, Urology, General Surgery, Neurosurgery and Ophthalmology.**
