

# Transition to Practice Program for Registered Nurses

## Welcome to the Royal Perth Bentley Group

Part of the East Metropolitan Health Service (EMHS), the Royal Perth Bentley Group (RPBG) brings together Royal Perth Hospital (RPH), Bentley Health Service (BHS), and an extensive community mental health network to deliver exceptional healthcare across Perth.

RPH is centrally located in the heart of Perth city, with easy access by train or bus. Staff enjoy subsidised parking, plus free parking for bicycles and motorbikes. Over at BHS, in the suburb of Bentley, staff park for free!

All our team members also benefit from access to a comprehensive staff wellbeing program and employee assistance services — because your wellbeing matters just as much as the care you provide.

## What's on offer for Registered Nurse graduates

- › The Transition to Practice Program is either six or 12-months duration, with the opportunity to experience one or two clinical areas.
- › At BHS, all 12-month graduates complete a comprehensive transition program (mental health and general health)
- › Both hospitals offer a range of clinical specialities including:

### RPH

Medical (speciality and general) | Surgical (speciality and general) | Operating Theatre | Coronary Care Unit | Endoscopy Suite | Imaging Department | Post Anaesthetic Care Unit | Outpatients Department | Mental Health (acute) | Emergency Department | Cardiac Catheter Lab | Intensive Care Unit (Foundation program offered after a minimum of 12-month practice)

### BHS

Medical | Surgical | Rehabilitation | Mental Health (acute, subacute, older adult and youth) | Operating Theatre

## How to apply for the RPBG Registered Nurse Transition to Practice Programs

Applications are only accepted online via the Department of Health's GradConnect ([www.gnc.health.wa.gov.au](http://www.gnc.health.wa.gov.au)).

If you are interested in a comprehensive program or mental health nursing apply via the RPBG Mental Health Pool for Registered Nurses within Grad Connect.
